Composer Notes

Created as a song of prayer for tranquility in our hearts, minds and souls, “Deep Peace” should be sung gently and with care. Each line is to be crafted in a smooth and linear fashion, without too much emphasis or pulsing on the downbeats, especially in the refrain. Choir directors should treat carefully the enunciation of the words, “deep peace.” Ask singers to form only one “p” between the words, letting it fall softly on the downbeat of the word, “peace.” Remind the singers to rest their spirits in the serenity of the meditative nature of the song, allowing its flow to transcend the stress of day-to-day living.
